

Assignment:-3

Task 1:- List 5 common issues users face with USB keyboards or mice on laptops, and write one possible solution for each.

Common USB Keyboard/Mouse Problems

Problem	Solution
1. Keyboard or mouse not working	Unplug and plug it in again.
2. USB port not working	Try another USB port.
3. Device works slowly	Restart the laptop.
4. Some keys/buttons don't work	Clean the keyboard or mouse.
5. Device keeps disconnecting	Check the USB cable for damage.

Task 2:- Simulate a troubleshooting flow: Your Bluetooth headphones are not connecting to your phone. Write the exact step-by-step actions you would take to diagnose and fix the issue, mentioning any settings or indicators you would check.

Troubleshooting Steps

1. **Check battery** — Make sure the headphones are charged.
2. **Turn on Bluetooth** — Go to **Settings** → **Bluetooth** and switch it on.
3. **Turn on headphones** — Check that the Bluetooth light is blinking.
4. **Keep them close** — Keep the headphones near the phone.
5. **Select headphones** — Tap their name in the Bluetooth list.
6. **Forget and reconnect** — If it fails, tap **Forget/Unpair**, then connect again.
7. **Restart** — Restart both the phone and headphones.
8. **Try again** — Put the headphones in pairing mode and connect.
9. **If still not working** — Reset the headphones and try once more.

Task 3:- A user reports that their external webcam is not detected during a Zoom call on Windows 10. Write a checklist of 6 things to check or try to resolve the problem. Hint: Consider device manager, privacy settings, and app permissions.

Webcam Troubleshooting Checklist

1. **Check the USB cable** — Unplug and plug the webcam back in.
2. **Try another USB port** — Connect the webcam to a different port.
3. **Check Device Manager** — Open **Device Manager** → **Cameras** and check if the webcam appears.
4. **Check privacy settings** — Go to **Settings** → **Privacy** → **Camera** and allow camera access.
5. **Check Zoom settings** — Go to **Zoom** → **Settings** → **Video** and select the correct webcam.
6. **Restart the laptop** — Restart Windows and try the Zoom call again.

Task 4:- You are helping a friend whose printer is showing 'offline' status on their PC. Describe how you would use the Windows Troubleshooter tool to try to fix the issue, and explain what information the tool provides during the process

Using Windows Troubleshooter

1. Open **Settings** → **Devices** → **Printers & scanners**.
2. Select the **printer** that shows "Offline."
3. Click **Manage** → **Run the troubleshooter**.
4. Windows will **check the printer and connection** for problems.
5. Follow the instructions shown on the screen.
6. If a problem is found, Windows may **fix it automatically** or suggest a solution.
7. The troubleshooter shows information such as **what problem was found, what was checked, and whether it was fixed**.
8. After finishing, try **printing a test page** to check if the printer is working.
